Week #1 Writing Worksheet "The Iliad"

Writing - One of the most enjoyable aspects of the Iliad is its vivid portrayal of character and action. Select one of the scenes you have read from Book 1 of the epic, and write a screenplay for a film version of the scene. Your script should include not only dialogue but also notes on costumes, casting choices, and special effects that you think would contribute to an effective film version of the scene. Experiment with different settings in place and time. For example, you might set your film during World War II , the Vietnam War, or even an imaginary inter-galactice conflict.
